

Improving our clients' bottom line  
for more than 40 years.

### **Global Financial Services Group**

is a privately held company located in Anderson, South Carolina, that has a sound history of delivering unparalleled customer service and outstanding performance results within the credit and collection industry, since 1976. Since our humble beginning, our company's growth has been facilitated through our founders' philosophy of delivering **"Big Firm Ability with a Small Firm Touch."**

**RMS** (Receivables Management Services) and **DataTrac** (DataTrac Receivables Recovery) are distinctively unique components which operate independently of each other, yet their combined synergies derive our comprehensive accounts receivable management entity. Through our unwavering passion for delivering superior results, these entities are recognized leaders focusing on the recovery of pre and post charged off receivables. Our mission is to provide a seamless variety of revenue cycle enhancement services that meet our clients' needs and exceed their expectations; therefore, we constantly measure our success by their success.

The recovery of our clients' A/R begins with a commitment to excellence from every team member throughout our company. By leveraging our experience in conjunction with robust database management technology, our teams meticulously work these aged receivables. **When communicating with debtors, we employ our time proven technique of consultative solution based recovery, which consistently yields higher liquidation and protects your brand image.**

In conclusion, we strive to cultivate long term relationships by delivering powerful resources through personal and responsive service. Our value is derived by enhancing your cash flow through our unique and personalized processes, while sustaining the brand integrity of your company and ours.

So why wait? Upon considering our reputation and results, allow us to become your valued business partner and complete the missing pieces of your revenue cycle puzzle today.
