Stratatonic "*nailed it*" - referring to the web site Ryan Owens and his team of professionals created for Crown Casting.

As the Sales and Marketing Manager of a startup manufacturing business, it was imperative that the content deliver a clear message. I wanted to be detailed, but not boring, while capturing their interest to read on. Ryan's creativity made it all happen.

The numerous compliments I receive say it all. The Global Casting Sourcing Manager of a Fortune 500 company I recently spoke to said, "I called you to compliment your web site. I literally go through hundreds of web sites each month. Your site is entertaining, informative and my 20 point questionnaire was answered completely."

Wow, that says it all.

Thank you Ryan.
