Dear Ryan,

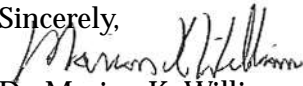

I want to personally thank you and your company for a job well done for the Eye Care Center. My partners and myself are very pleased with the finished product ([www.upstateeyecarecenters.com](http://www.upstateeyecarecenters.com)) and eagerly await the fruits of your labor. With competition being as stiff as it is in the eye care industry, our new website sets us apart from the others.

From the very beginning, professionalism was a huge welling point with us. Your salesman, Mark Vaughan, took a big interest in our company. The needs of our company were targeted, developed into a workable solution and presented in an easy to follow format. We wanted to project an image that showed how we treated our patients and customers with special care and a personal touch. And that is exactly what we received from the first proof of the home page to the final product.

Ryan, your theme of "Better Vision Through Better Care" and "In Focus - Personal, Professional and Passionate" really drives home the goals of our offices. Again, we could not be more pleased with the product you have provided us. We are sure that the returns on our investment of a professionally done website will be many fold.

Thanks again for your efforts and talents.

Sincerely,

  
Dr. Marion K. Williams
